

28th June, 2013

Dear Valued Clients

We are very pleased to announce that from 1st July 2013 the building services coordination and independent commissioning agent side of the Pacific Consultants business run by Chris Burrows and Carl D’Rose is rebranding to Pacific Commissioning & Coordination Limited.

While trading under the Pacific Consultants umbrella since 2002, Chris and Carl have successfully developed Pacific Consultants as leaders in independent commissioning management and building services coordination. A consistent growth in demand particularly for independent commissioning agent services, along with a desire to better define their position in the industry and adapt to client’s needs has resulted in their decision to rebrand away from Pacific Consultants. Besides the new look, Chris and Carl’s clients can expect “business as usual” as they continue to provide top quality service with the same expert team of commissioning engineers.

All cellphones numbers for the commissioning team remain the same but they will be in touch with their contacts as to their new email addresses.

Chris and Carl’s company HMG Pacific Ltd t/a Pacific Consultants has changed its name to Pacific Commissioning and Co-ordination Ltd. All existing contracts, insurances remain in place and are unaffected.

We view this change as a positive development for Pacific Consultants Building Engineers as it allows us to focus on our core design services. We will continue to provide full building services design services out of our Wellington and Auckland Pacific Consultants offices.

We wish Chris and Carl all the best and look forward to working with them on future projects.

Regards

Michael James
